

BUILD YOUR DECK *in* FIVE EASY STEPS

BUILT FOR LIVING

Engineering what's next in outdoor living isn't just a motto; it's our mission. More than 20 years ago, Trex revolutionized the industry by introducing a high-performance, eco-friendly alternative to wood decking. Today, we're proud to offer *more ways than ever* to live outdoors—whether you're building on a budget or seeing your biggest, boldest idea through. It's never been easier to make the Trex® decision that's right for you.

YOUR DECKING CHECKLIST

In just five steps, go from having a bad case of deck envy to being *100% deck ready*.

1

DETERMINE MATERIALS, SIZE & SHAPE

The what and the how of building the deck of your dreams. Plan accordingly.

2

CONSIDER THE SUBSTRUCTURE

Find out why our steel framing system results in long-lasting stability and support.

3

CHOOSE YOUR DECKING

Three tiers of decking provide a comprehensive range of easy, low-maintenance options.

4

CHOOSE YOUR RAILING

The signifier of great taste. Pick a pre-styled combo, or mix-and-match Trex® Signature™, Transcend® or Select® rails, posts and balusters.

5

ADD THE EXTRAS

Complete your outdoor area with furniture, lighting, storage and shade.

STEP 1

Materials, SIZE & shape

Once you know how you want to use your deck, you'll be able to determine the best materials, size and shape. Ask yourself these questions to see where you stand.

1

Do you have the time to maintain a wood deck?

2

Will you use an existing substructure or build a new one?

3

Do you expect your deck to retain its vibrancy, year after year?

4

Do you envision a curved or angular deck?

?

5

Will there be more than one level?

6

Will there be multiple exits and entrances?

7

Do you want room for a grill or dining area?

8

How will you light your deck?

THE LOOK OF WOOD

WITHOUT
ALL THE
WORRY

You could build your deck with any number of materials.
But why would you, when Trex® decking and railing
consistently outdeck wood and the wannabes?

Consider the SUBSTRUCTURE

Think about it:

*if you're going to build
a long-lasting deck,
don't you want its support
to last just as long?*

Trex Elevations®, our system of durable, triple-coated steel beams, joists and tracks, creates the strongest, straightest and greenest structures down below. Unlike interior-grade galvanized steel, Trex Elevations is code-listed specifically for exterior use.

STEEL DECK FRAMING

*The only deck frame
that can stand up
TO THE ELEMENTS*

Wood substructures split, warp and shift, leading to an uneven surface in the deck boards above. The dimensionally stable steel of Trex Elevations stays in place, giving you consistently stronger, straighter, safer and smarter decking than what wood can offer.

STRONGER

Triple-coated steel offers consistency, durability and reliability that treated wood can't.

STRAIGHTER

Precision engineering ensures surfaces remain flat over time.

SAFER

Rot- and termite-proof steel is chemical-free and lasts much longer than wood.

SMARTER

Contains a minimum of 25% recycled steel and is a 100% renewable resource.

TREX TRANSCEND®, TREX ENHANCE®, TREX SELECT® AND TREX® UNIVERSAL FASCIA LIMITED FADE & STAIN WARRANTY

For the term set forth below, Trex Company, Inc. (hereinafter “Trex”) warrants to the original end-user purchaser (the “Purchaser”) that Trex Transcend® decking, porch or fascia, Trex Enhance® decking or fascia, Trex Select® decking or fascia or Trex® Universal Fascia, as the case may be (the “Product”) will perform, under normal use and service conditions, as follows:

Term of Warranty: The term of this warranty shall begin on the date of original purchase, and shall end (1) twenty-five (25) years thereafter for a residential application of the Product, and (2) ten (10) years thereafter for a commercial application of the Product.

Residential/Commercial Application: For purposes of this warranty, a “residential application” shall refer to an installation of the Product on an individual residence, and a “commercial application” shall refer to any installation of the Product other than on an individual residence.

Fade Resistance: The Product shall not fade in color from light and weathering exposure as measured by color change of more than 5 Delta E (CIE) units.

The Product is designed to resist fading. No material is fade proof when exposed to years of UV exposure and the elements. The Product is designed to resist fading, and will not in any event fade by more than 5 Delta E (CIE) units.

Stain Resistance: The Product shall be resistant to permanent staining resulting from spills of food and beverage items including ketchup, mustard, salad oils, tea, wine, coffee, fruit punch, barbecue sauce, grease, sodas and other food and beverage related items that would typically be present on a residential deck, or mold and mildew naturally occurring in the environment. provided that such substances are removed from the Product with soap and water or mild household cleaners within one (1) week of exposure of the food or beverage to the surface or first appearance of the mold and mildew.

Notwithstanding the foregoing, Trex does not warrant that the Product is stain-proof, and does not warrant stain resistance resulting from spilled or otherwise applied food and beverage substances which are not properly cleaned as provided above within one (1) week of exposure. In addition, materials not covered in the stain resistant warranty include abrasive compounds of acidic or basic pH, paints or stains, strong solvents, metallic rust or other abnormal deck use items, and non-food and non-beverage substances, including but not limited to, biocides, fungicides, plant food, or bactericides. Mold and mildew can settle and grow on any outdoor surface, including this Product. You should periodically clean your deck to remove dirt and pollen that can feed mold and mildew. This warranty does not cover mold and mildew which is not properly cleaned as provided above within one (1) week of first appearance.

Standard Trex Company Limited Warranty: This warranty is in addition to the standard Trex Company Limited Warranty that applies to all Trex products.

Transferability: With respect to a residential application, this warranty may be transferred one (1) time, within the five (5) year period beginning from the date of original purchase by the Purchaser, to a subsequent buyer of the property upon which the Trex products were originally installed. With respect to a commercial application, this warranty is freely transferable to subsequent buyers of the property upon which the Trex products were originally installed.

EXCLUSIONS FROM WARRANTY COVERAGE:

Exposure to Heat: Direct or indirect contact with extreme heat sources (over 275 degrees) may cause fading and may damage the surface of the Product, and any effects of such exposure are expressly excluded from coverage under this warranty.

Surface Damage: Never use metal shovels or sharp-edged tools to remove snow and ice on the surface of the Product. If the surface of the Product is damaged or punctured, this warranty will be voided.

Paint or Other Materials Applied to the Product: If paint or other coating materials are applied to the Product, this warranty will be voided.

Railing: This warranty does not cover Trex Transcend®, Trex Enhance® or Trex Select® railing components.

Other Exclusions: This warranty shall not cover any condition attributable to: (1) improper installation of the Product and/or failure to abide by Trex’s installation guidelines, including but not limited to improper gapping; (2) use of the Product beyond normal use or service conditions, or in an application not recommended by Trex’s guidelines and local building codes; (3) movement, distortion, collapse or settling of the ground or the supporting structure on which the Product is installed; (4) any act of God (such as flooding, hurricane, earthquake, lightning, etc.); (5) improper handling, storage, abuse or neglect of the Product by Purchaser, the transferee or third parties; (6) any fading or staining not on the walking surface of the Product (i.e., the underside or the ends of the Product); or (7) ordinary wear and tear.

Procedure for Making a Claim under this Warranty

In order to make a claim under this warranty, Purchaser must do the following:

1. If the Purchaser is making a claim relating to the warranty on stain resistance, Purchaser must do as follows:

(a) Purchaser must try to clean the affected area of the deck by using the cleaning procedures described above within one (1) week of exposure of the food or beverage to the Product or first appearance of the mold and mildew.

(b) If the affected area remains reasonably unsatisfactory after Purchaser has tried these cleaning procedures, then Purchaser must have the affected area of the deck professionally cleaned at Purchaser’s expense.

(c) If the affected area remains reasonably unsatisfactory after the professional cleaning, Purchaser may make a claim under this warranty, provided that such claim is made within thirty (30) days after the professional cleaning.

2. To make a claim under this limited warranty, Purchaser, or the transferee, shall send to Trex, within the warranty period referred to above, a description and photographs of the affected area of the Product, proof of purchase, and if the claim relates to the warranty on stain resistance, proof of compliance with paragraph 1. above, to the following address:

Trex Company, Inc.
Customer Relations
160 Exeter Drive
Winchester, VA 22603-8605

3. Upon confirmation by an authorized Trex representative of a valid claim hereunder, Trex’s sole responsibility shall be, at its option, to either replace the affected item or refund the portion of the purchase price paid by Purchaser for such affected item (not including the cost of its initial installation).

Replacement material will be provided that is as close as possible in color, design and quality as the replaced material, but Trex does not guarantee an exact match as colors and design may change.
